

We are looking for an **Engineer for underground storage technology**

Company: ESK GmbH

Location: Freiberg, Germany

We are looking for an engineer to join our underground storage technology team at our Freiberg or Leipzig (Saxony, Germany) site.

ESK GmbH, as a 100% subsidiary of Westenergie AG, is an engineering service company with international operations that specialises in energy storage and the provision of energy services.

What you'll be doing:

- Preparing concept and feasibility studies
- Basic and detail engineering for construction, maintenance and monitoring of underground storage facilities
- Engineering support for the operation of underground storage facilities
- Project management
- Cost planning and scheduling for projects
- Performing supervision on construction sites in Germany and internationally

What we need from you:

- Masters degree/diploma in the fields of Petroleum Engineering, Mining, Mechanical Engineering, Process Engineering or similar
- Good oral and written English skills
- The ability to work in a team and a high level of commitment
- Several years of professional experience ideally, especially as a supervisor in cavern completions
- Good MS Office skills
- Strong organisational skills and the ability to work independently
- Communication skills and a strong understanding of the engineering, technical and operational requirements

It would be great if you had:

- Full IWCF Certificate „Drilling Well Control“, Level 4 (Supervisor)
- Valid qualification as first aider
- Training certificates in fire protection, SCC (for executives) and occupational safety, health and environmental protection
- Working knowledge of „Landmark“
- At least 5 years working experience

What else you need to know:

We offer a dynamic working environment in a multidisciplinary team. You will be given a high level of personal responsibility, opportunities to shape your own career as well as personal and professional development opportunities together with an attractive salary.

This is a permanent employment.

Get in touch: Send your application to: info@esk-projects.com. Your contact partner is Mr Torsten Wagler.
